

JOYRIDE IS THE AMAZON OF GROUND TRANSPORTATION

Drivers can keep **100%** of every fare &
Riders get a **better ride & lower prices**

We **liberate** drivers from **gig slavery** so they give riders a **better ride**.

David Linhardt

Founder & CEO

dave@joyride.cool

THE OPPORTUNITY

The rideshare model is broken for everyone **except** Uber and Lyft.

40%

Cut taken by Uber & Lyft on every fare

\$6K

What a driver keeps on \$10K of monthly bookings

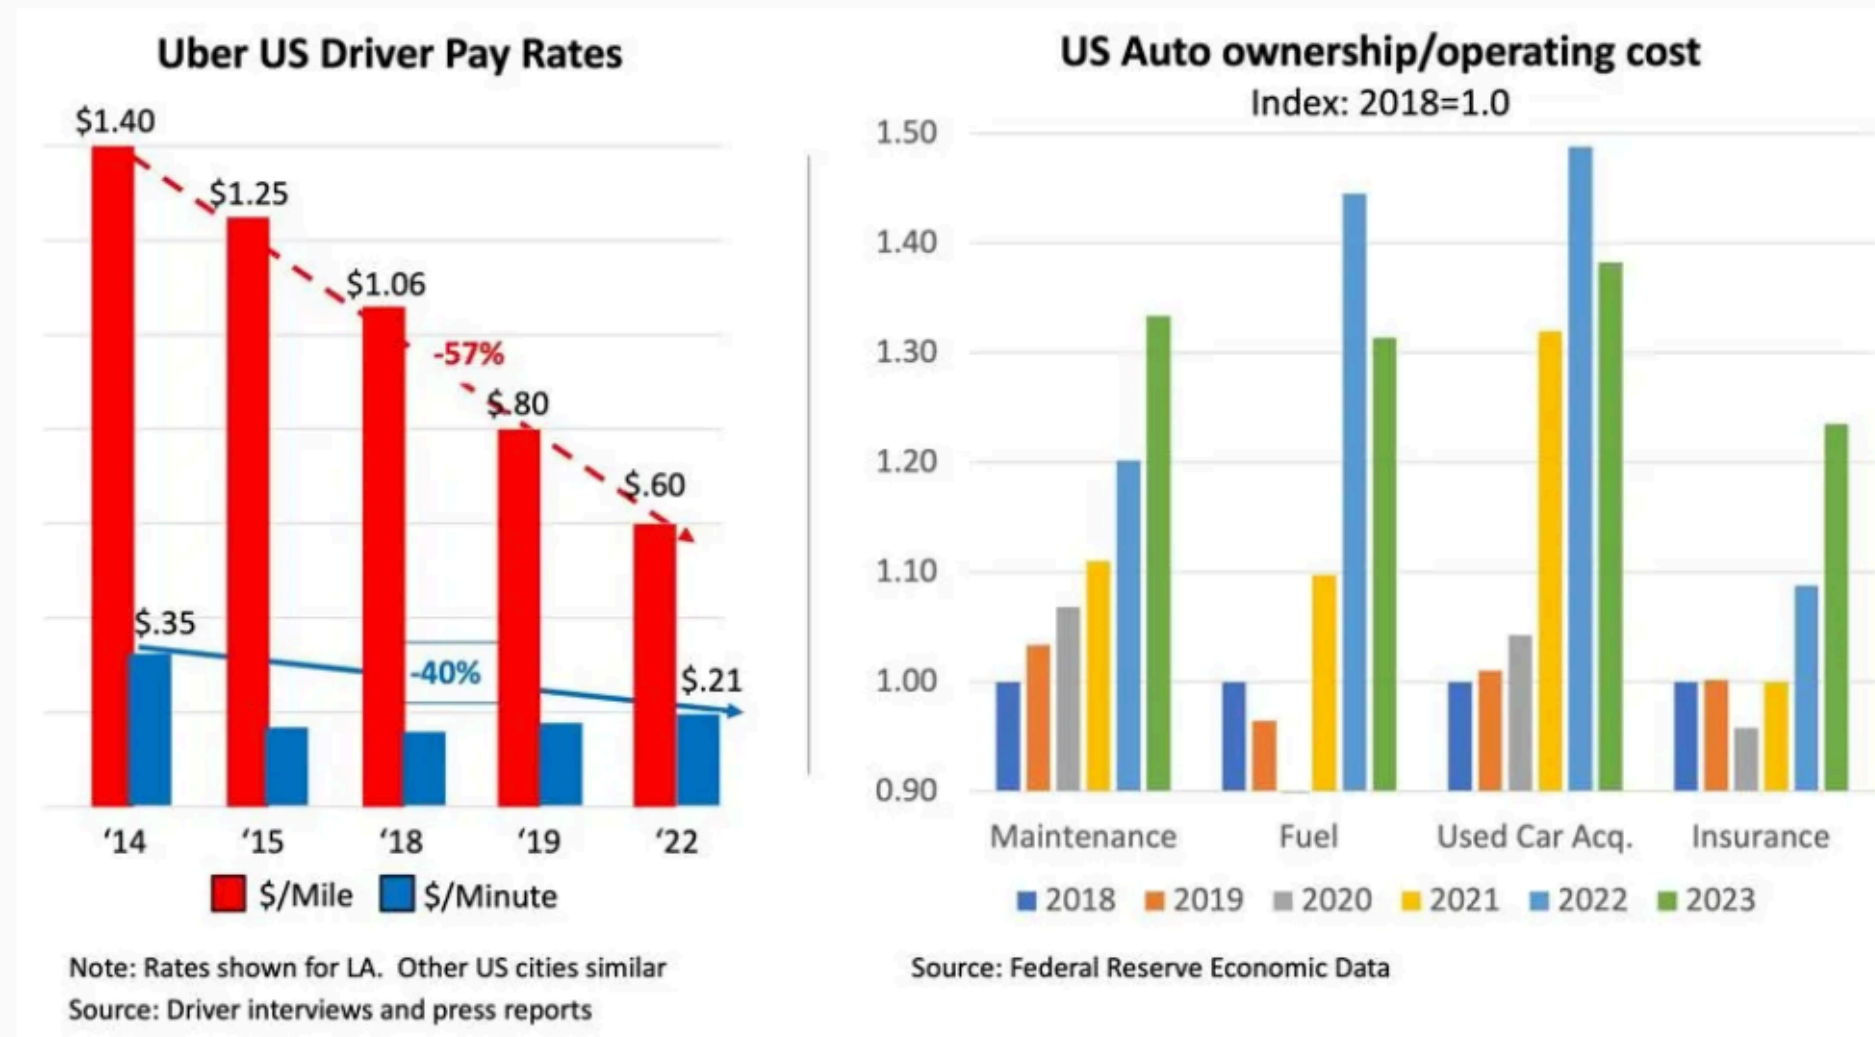

Quality drivers burning out. Riders getting worse cars and service.

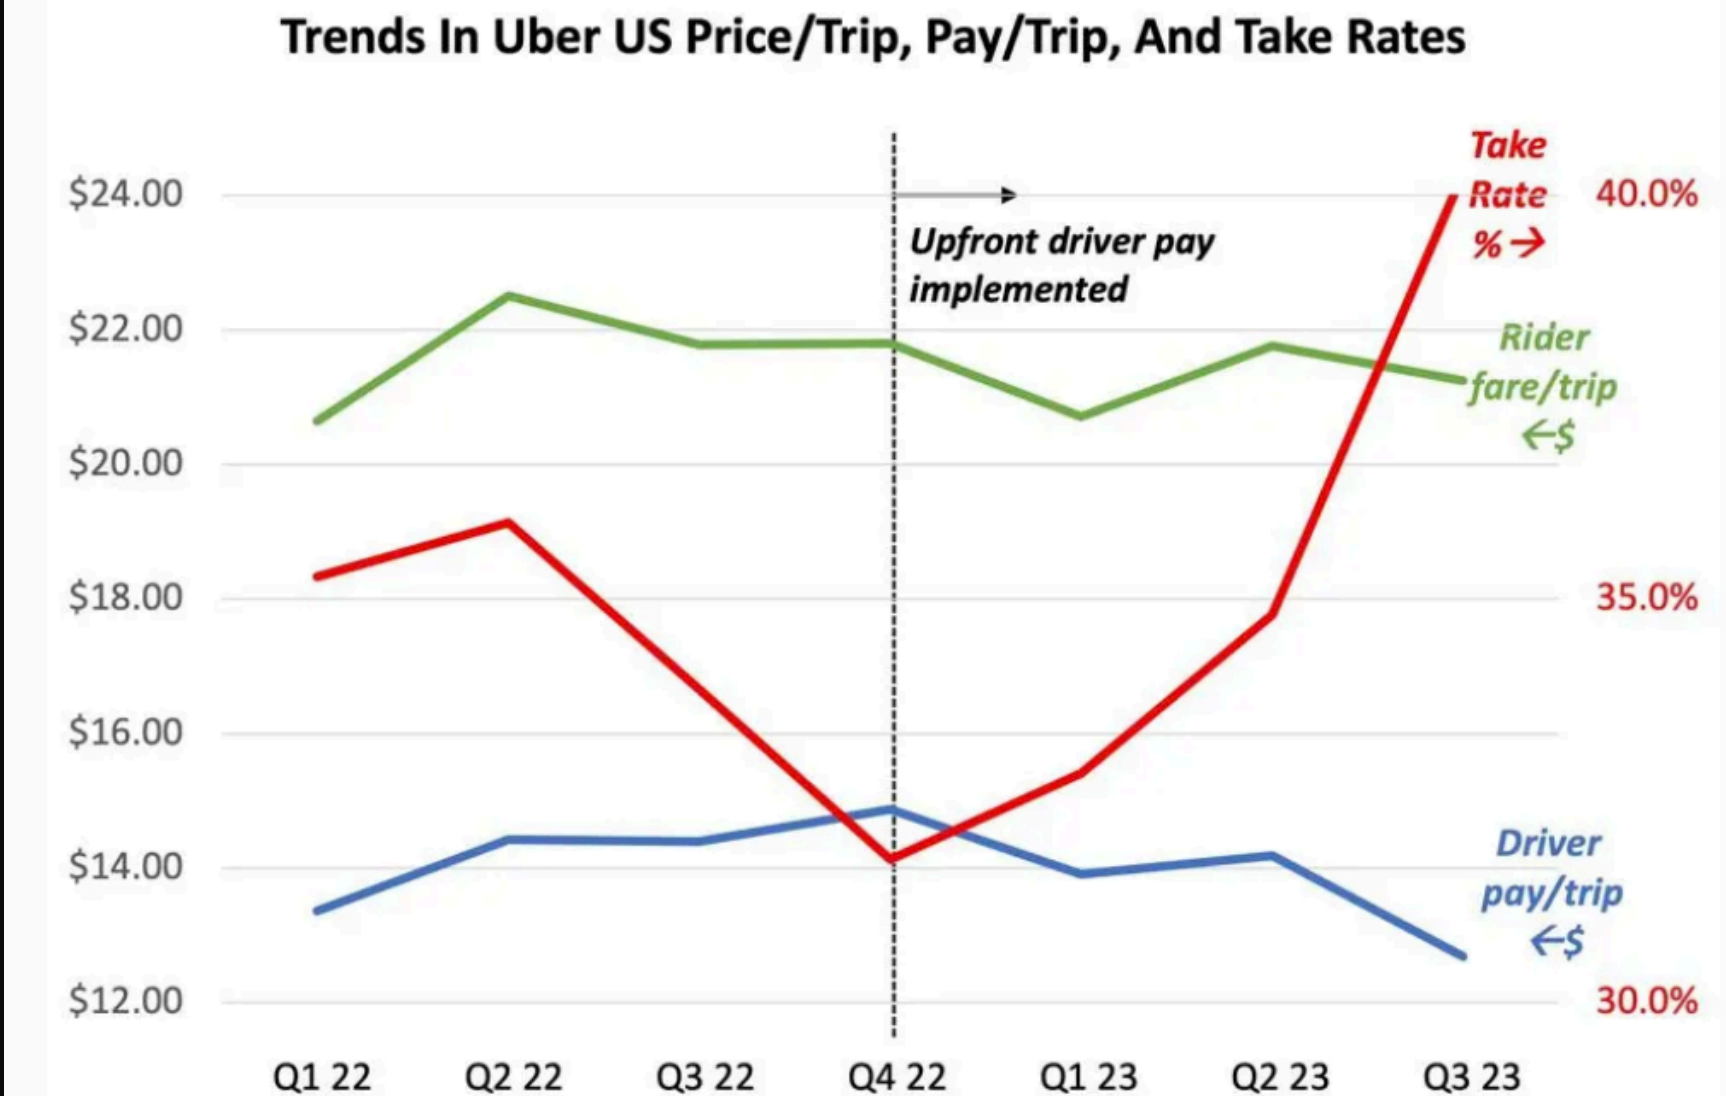

Because drivers keep so little, the system attracts **lower-quality drivers** and burns out the good ones — leaving riders with **inconsistent** cars, **unpredictable** service, and a **steady decline** across every class.

THE OPPORTUNITY

Uber Hides Driver Pay Cuts To Boost Profits

Uber Driver Base Pay Rates And Operating Costs AUTHOR ANALYSIS

THE OPPORTUNITY

My recent experience on UberLyft

Drivers can't make money

Uber

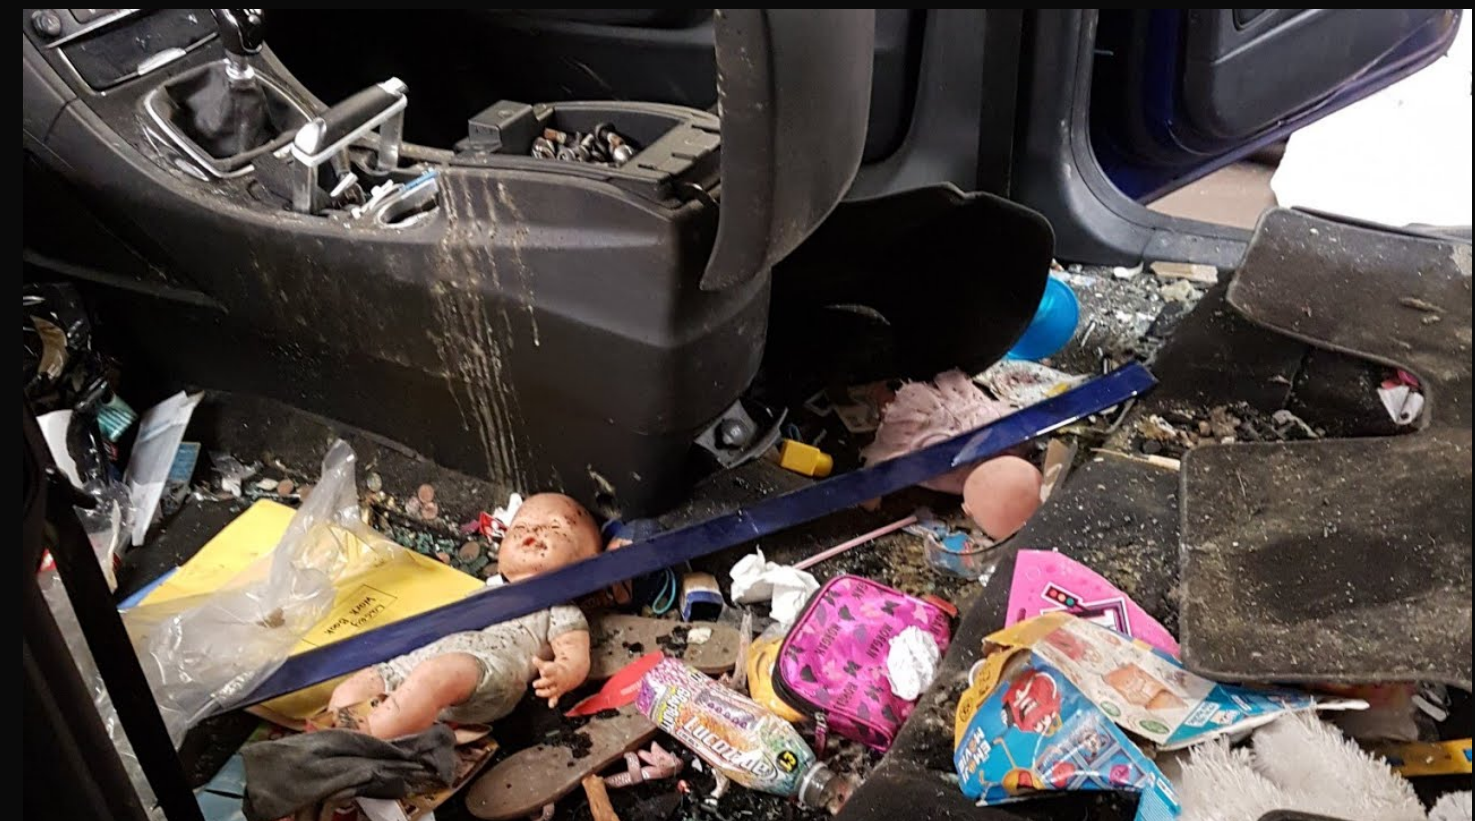

Fare	\$38
Driver pay	\$9
Uber take rate	76%

Take rate for competitive marketplaces
in other industries is around 10 to 20%

Pricing Strategy

Feedback loops are broken

lyft

Do you mind if I vape?

The driver had a perfect 5.0 rating

😊 Joyride

THE SOLUTION

Joyride marketplace where **everybody** wins.

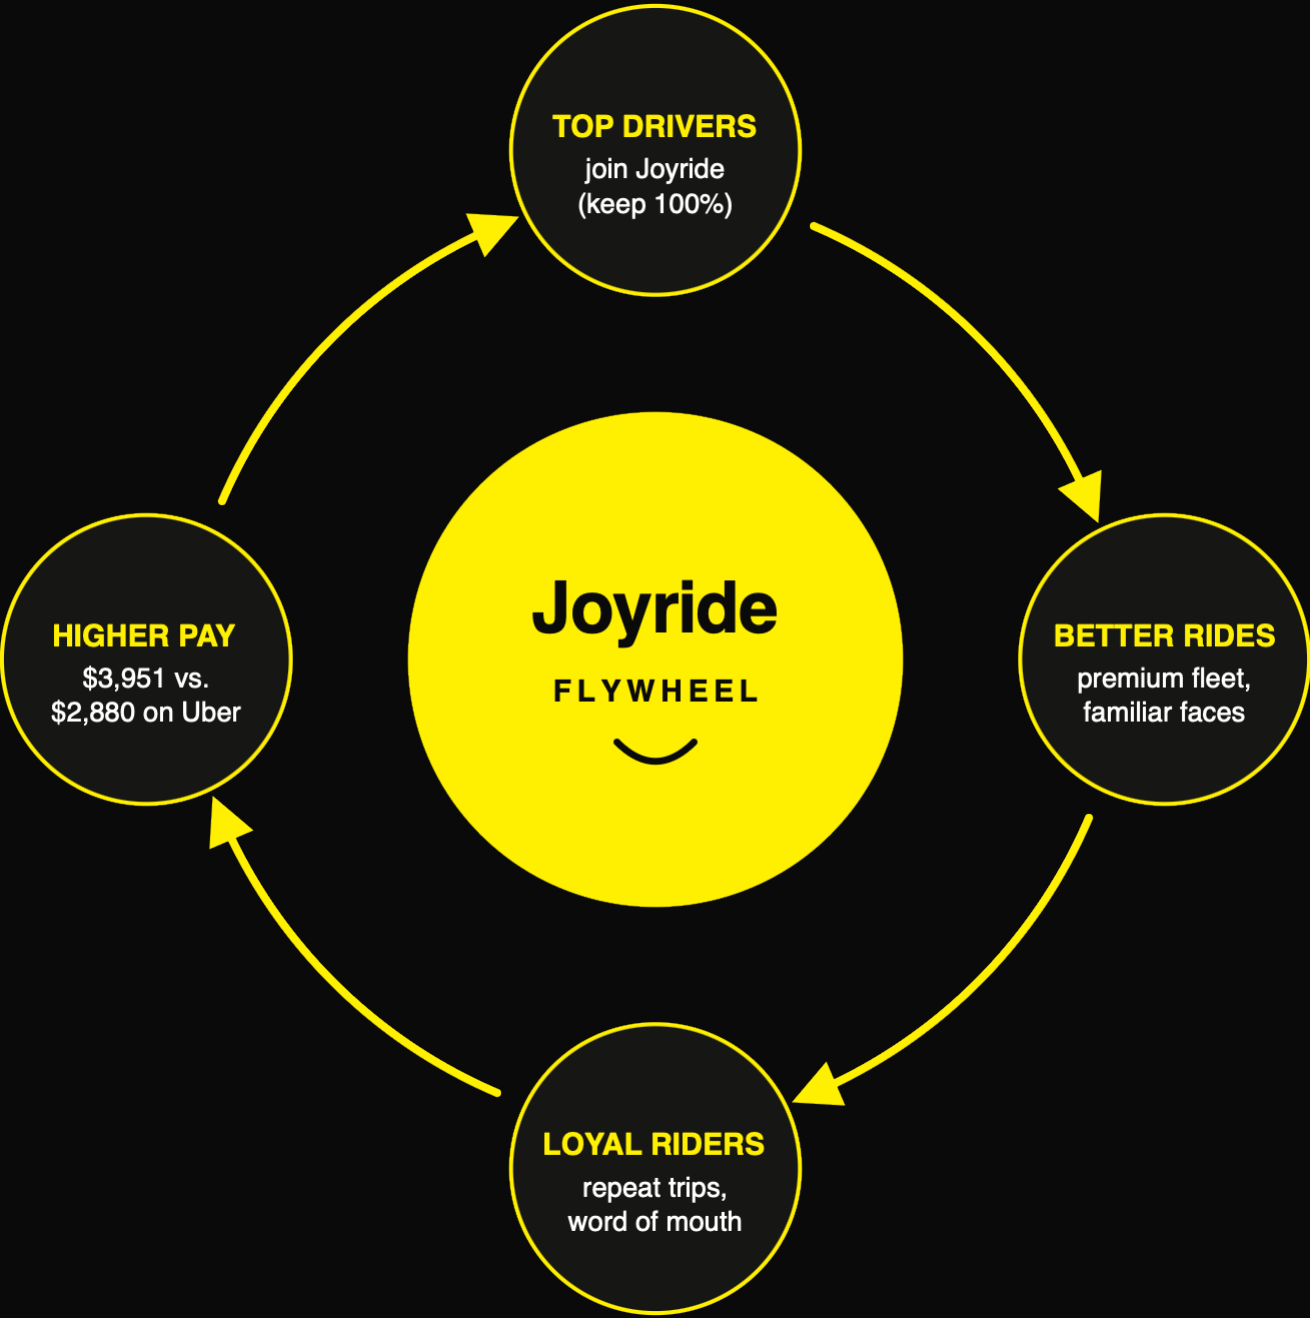

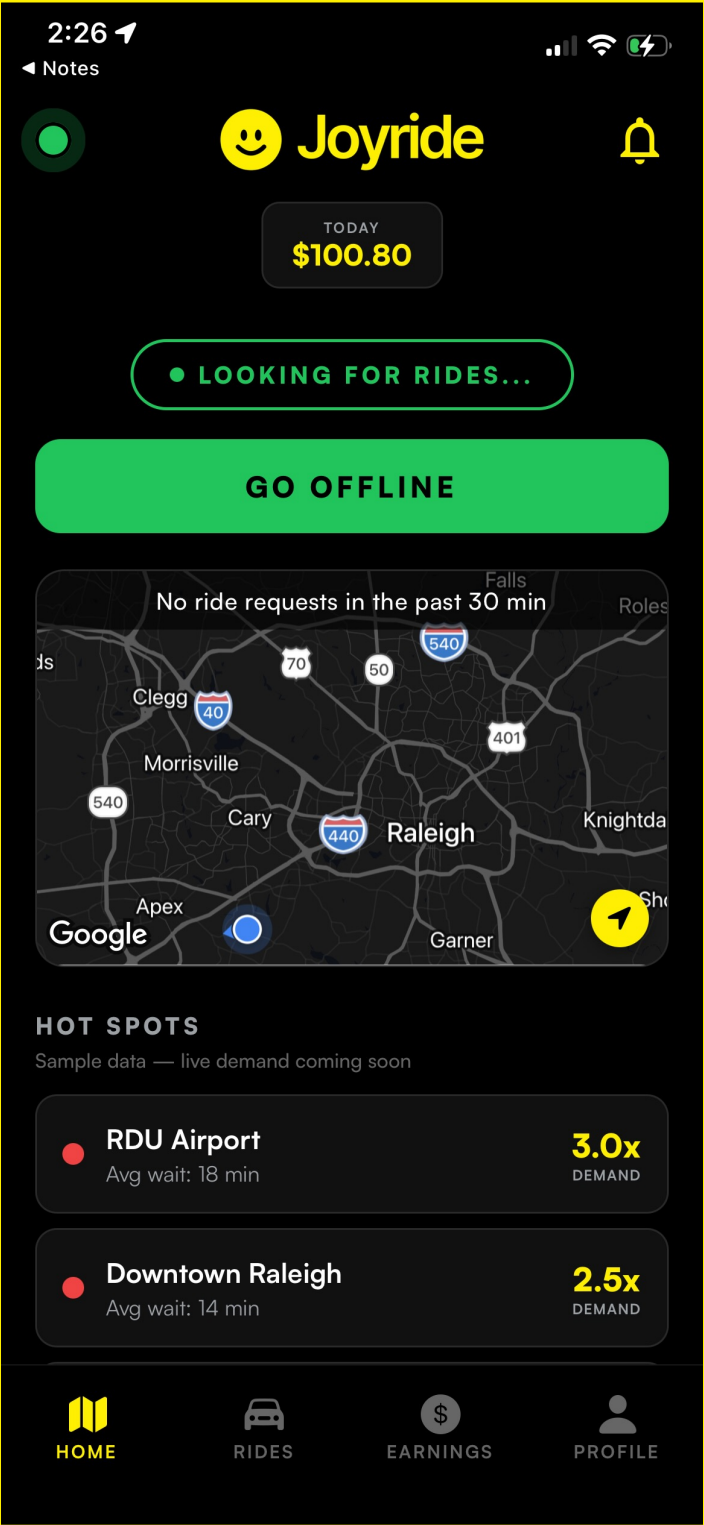

Joyride is a new transportation marketplace where drivers **set their own prices, build their own client list and keep 100% of the fares.** Riders get **better, more consistent and reliable service at lower prices.** Everybody wins.

- Drivers run a business they **own** on the Joyride **marketplace**
- Drivers own **pricing**, service **delivery** and their Customer **relationships**
- Drivers pay a monthly **subscription** fees - \$0, \$249 or \$499 per month
- Riders get **better** Drivers and **better**, cleaner cars
- Riders can filter by price, wait time, rating and favorite
- Drivers build a **real business** they own

Demo

UNDERLYING MAGIC

Our advantage is the **Joyride flywheel**.

- Better **pay** attracts the **better** Drivers
- Better Drivers provide **better**, more consistent, reliable **service** for Riders
- Loyal Riders come back for **better** experiences
- Rider **loyalty** re-inforces Driver pay
- This is how a **free marketplace** works!

BUSINESS MODEL

An open marketplace, not a **squeeze machine**

Money flows **directly** from rider to driver. We never touch the fare.

Drivers pay a **flat monthly subscription** for platform and marketplace access.

FUNDAMENTAL DIFFERENCE

UberLyft: Squeeze drivers, charge rides more, monopoly

Joyride: Drivers & riders are participants in a low-friction marketplace

We make money by making the marketplace valuable for both sides of the transaction - not by taking a cut of every transaction

GO-TO-MARKET

First Milestone: 400 drivers = \$2M ARR.

We will reach this milestone with a two-pronged attack:

1

Driver Affiliate Engine

Turn frustrated Uber & Lyft drivers into our **best salespeople**. Every driver gets a personal profile page and affiliate link — they promote Joyride to their existing customers and earn royalties on every repeat ride.

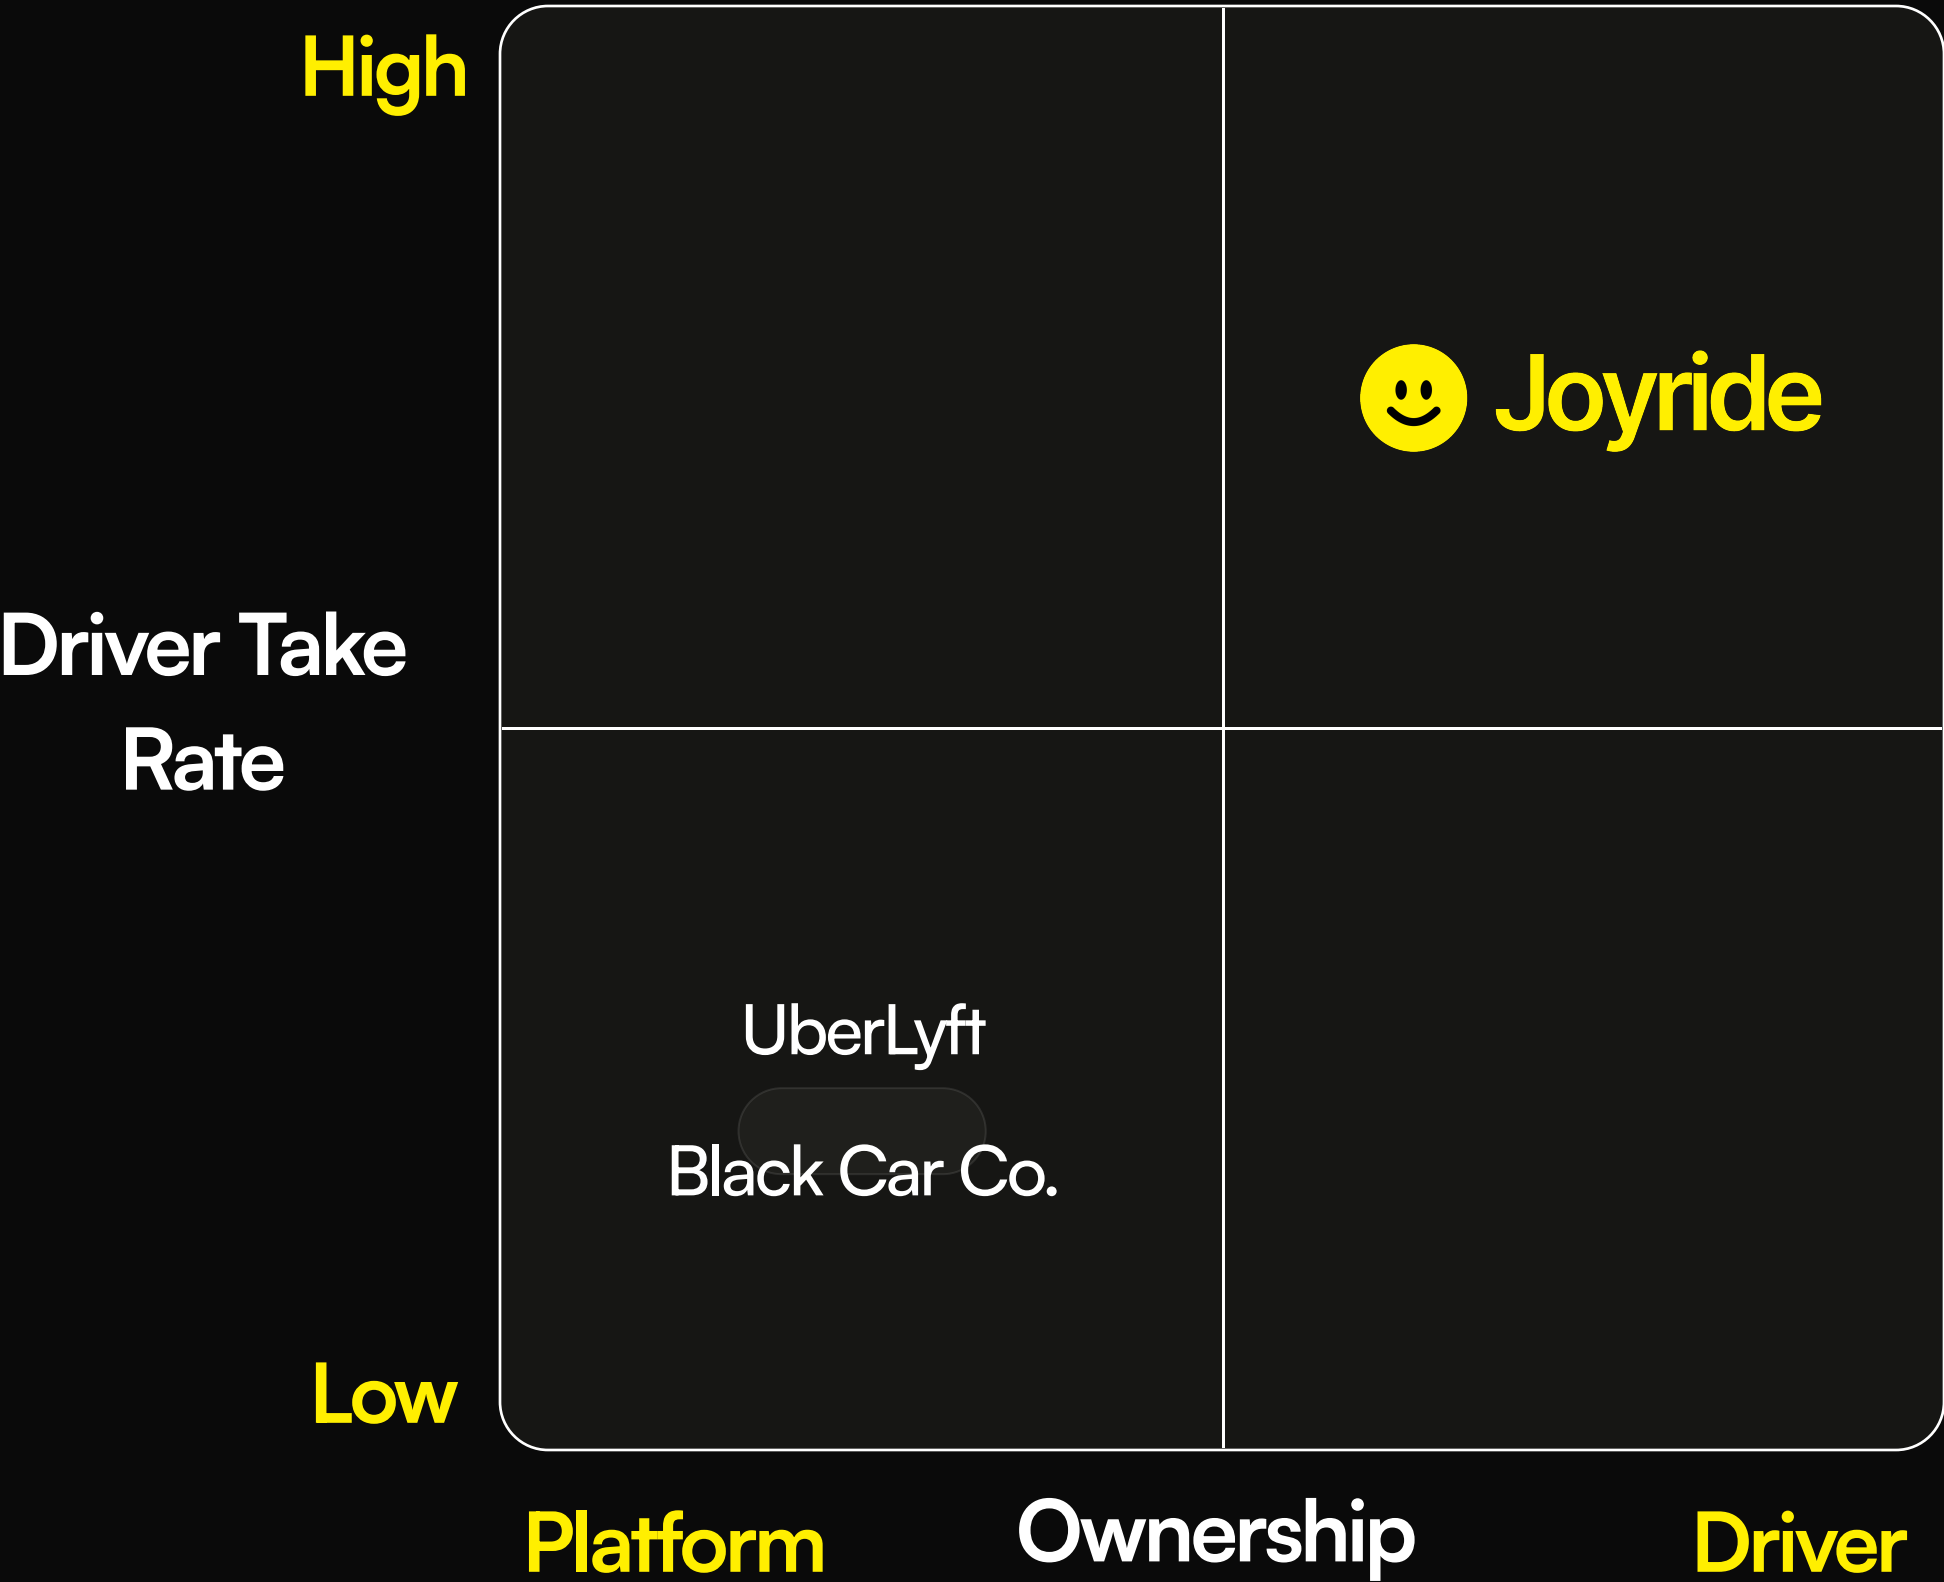

2

Content & Social Media

A Dollar Shave Club approach — **sharp, satirical videos** calling out the real problems with Uber & Lyft: filthy cars, declining quality, and a worse experience for everyone. **Why are we putting up with this?**

COMPETITIVE ANALYSIS

Who owns the customer?

Joyride is the **only** player that gives drivers both **control** of their customer relationships and a high take rate (**85%+**). This combination creates much **higher quality** drivers and a dramatically **better experience** for riders.

COMPETITIVE ANALYSIS

Driver Feature Advantages

Drivers run their business on Joyride

	UberLyft	Joyride
Rake (take rate)	40%	0 to 15%
Driver controlled pricing	No	Yes
Programmatic bidding	No	Yes
Filter by pricing preferences	No	Yes
Driver controlled client list	No	Yes
Punishment free selection	No	Yes
Punishment free cancels	No	Yes
Paid wait time	No	Yes
Mini map rendezvous to find rider	No	Yes
Full payment transparency	No	Yes
Driver affiliate marketing page	No	Yes
Rider price filters	No	Yes

A Rake Too Far

We believe the mistake **UberLyft** are making is they see their service as a **product** to be optimized for **gross margin**. This works if there is no competition. But in a competitive market, **high volume** combined with a **modest rake** is the perfect formula for a true organic marketplace and a **sustainable competitive advantage**.

If we put the Joyride free marketplace at **10% rake** against UberLyft's controlled marketplace at **40% rake**, **Joyride wins every time**.

EXPANSION

Down the road, three strategies increase **growth**

1

Joyride Technologies, Inc.

Joyride marketplace for the best Drivers and Riders who want a better experience.

2

Joyride Transportation, Inc.

Provide Fleet of Tesla Model Y vehicles with FSD. Drivers are trained, uniformed employees or contractors.

3

Joyride Insurance, Inc.

Bridges the gap between person and commercial vehicle use. Insures third-party owned Tesla vehicles with FSD.

MANAGEMENT TEAM

Founder-market fit. 11th startup.

David Linhardt

Founder & CEO

11x entrepreneur, 2x venture studio founder (8 profitable, 3 exits)

Created \$2B+ in enterprise value across startups and corporate

CURRENT STATUS & USE OF FUNDS

Raising **\$500K** to launch one market

- Started giving rides on UberLyft to **learn** from Customers
- Ran conversion test on UberLyft with one car resulting in **117 direct Customers (23% conversion)**, **314 scheduled rides** and **\$19.2K in revenue**
- Completed rider app, driver app, web app, new website at joyride.cool.

USE OF FUNDS • \$500K EQUITY ROUND

App	Launch On-Demand service
------------	---------------------------------

Fleet	Expand to 400 Drivers
--------------	------------------------------

Grow	Achieve \$2M ARR
-------------	-------------------------

**Next milestone: 400 drivers
generating \$2M in recurring revenue**

Appendix

COMPETITION

UberLyft Are Misleading About Take Rate

UberLyft redefined Take Rate so they wouldn't look like a greedy monopoly. Drivers know the truth - they know what's in their bank account.

Customer Fare	\$20.00	
• UberLyft Take	\$8.00	40%
• Driver Take	\$12.00	60%
UberLyft selected costs		
• Insurance	\$3.00	15%
• Other & misc costs	\$1.00	5%
UberLyft Net Revenue	\$4.00	20%
UberLyft's newly defined take rate	20%	

“The last time I called an Uber, a car showed up with the front fender hanging off.”

—Claire, Head Concierge, Umstead Hotel (A Five-Start Hotel in Cary, NC)

1 Customer Complaint

- “The driver was **drunk**” or “The driver was **high**.”
- Customers that want a better experience are moving up classes but all classes are deteriorating
 - UberX
 - Uber Comfort
 - Uber Premier
 - White Horse
